JERICHO

Tour the coast of Mount Desert Island aboard Jericho – a 42-foot Bunker and Ellis classic wooden power yacht built in 1956.

Departing Northeast Harbor, you'll pass Bear Island Lighthouse to cruise up Somes Sound, experiencing the rocky cliffs, wildlife, quaint harbors, and views of waterfront summer estates. On route to Otter Cliffs, you will pass Seal Harbor and Bunker's Ledge. Enjoy your favorite refreshments with family and friends while exploring one of the most beautiful coastlines.

This unique experience is the perfect way to celebrate a special anniversary or birthday, an engagement, or a reunion of family and friends.
